ABSTRACT

I am a dedicated and enthusiastic college student with interest in Java, Python, and web design. Passionate about learning new technologies and enhancing my programming skills to build innovative and user-friendly solutions. I aim to grow as a software developer by applying my knowledge to real-world challenges, collaborating with teams, and continuously expanding my technical and creative abilities.

EDUCATION

Mohamed Sathak AJ College of Engineering

Bachelor of Technology in Information Technology | CGPA:7.68

Neelan Matric Higher Secondary School

HSC - 71.17%

St. Joseph Matriculation School

SSLC - 70%

SKILLS

- **Programming Languages:** Java, C#
- **Web Technologies:** HTML, CSS
- **Database:** SQL
- **Version Control:** GitHub, Docker
- **Cloud & DevOps:** AWS (EC2, S3, VPC, Cloud Watch, Docker, Jenkins,)
- **Tools:** VS Code, Eclipse
- **Operating System:** Linux

INTERNSHIPS

C# - Auxinzio Private Limited

I completed a 3-week internship at Auxinzio Private Limited, where I worked on developing a CRUD application using C# and APIs(Info Gadgets), and also practiced solving basic programming problems to strengthen my understanding of the language.

PROJECTS

Placement Management System - Student Module | Eclipse, PG Admin

Developed the Student Module of a Placement Management System, enabling students to enter details such as name, college, email ID, and department. Implemented functionality to automatically store, edit, and delete student information in the PostgreSQL database through a Spring Boot backend. Designed an intuitive front-end using HTML, CSS, and JavaScript for efficient data management and interaction.

CERTIFICATES

- **IBM** - Business Intelligence
- **Spoken Tutorial** - Python
- **TNS Foundation** - Java Full Stack

ACHIEVEMENTS

- Organized a aptitude based quiz competition in my college.
- 3rd position in create to complete IOT mini project competition
